

Lakeside Village Manufactured Housing Community opened in 1973. It was acquired by The Time Group and partners in the early 1980s. It has been expanded a number of times since the original investment and is fully built out now at in excess of 550 pad sites and homes. It is considered the premier manufactured housing community in Washington County and the surrounding areas. It occupies a substantial quadrant on the northwest side of the intersections of Route 70 and Route 81.

The most recent activity has been the construction of a community center, management office, and swimming pool. [For more information, please visit www.lakesidevillagemd.com.](http://www.lakesidevillagemd.com)
